Appl. No. 10/677,322  
Amdt. Dated Feb. 17, 2006  
Reply to Office Action of Jan. 20, 2006

**REMARKS/ARGUMENTS**

The specification and drawings have been amended for correspondence between the text and the figure of drawing regarding the disclosed injection rod and mobile trailer features of the applicants' claimed invention. Support in the specification with regard to the mobile trailer is found in applicants' specification on page 4, lines 10-12 and on page 9 at claim 7. Support in the specification for the injection rod is found in the original application on page 4, lines 19-21 and page 5, lines 17-22 and in claim 2. No new matter has been added.

Claims 1-7 have been allowed, however the drawings are objected to under 37 C.F.R. 1.83(a) because every feature of the invention in the claims is not shown. Accordingly, the Examiner has required corrected drawings. In response thereto, the applicants have provided herewith corrected drawings in compliance with 37 C.F.R. 1.121(d). The text of applicants' specification on pages 4 and 5 have been amended slightly to correspond to the drawing corrections. No new matter has been added.

In light of the amendments made herein, it is now believed that all requirements for the allowance of claims 1-7 presently pending in this application have been met and allowance at an early date is hereby solicited.

Respectfully submitted,
